1. A paper copy of the "Sequence Listing" (Exhibit 1); and
2. a Declaration Under 37 C.F.R. §1.821(g) attesting that the content of the paper and computer readable copies are the same and include no new matter (Exhibit 2).

The paper copy of the Sequence Listing in this application is identical to the computer readable copy of the Sequence Listing filed in Application No. 09/104,067, filed on June 24, 1998. In accordance with 37 C.F.R. 1.821(e), please use the first-filed computer readable form (CRF) filed in that application as the CRF of the instant application. It is understood that the Patent and Trademark Office will make the necessary change in application number and filing date for the instant application.

PLEASE AMEND THE ABOVE-REFERENCED APPLICATION AS FOLLOWS:

In the Specification:

Kindly insert the attached Sequence Listing, consisting of 4 pages, directly after the last paragraph of page 14, and before page 15.

By this Amendment, Applicants are directing the entry of the initial paper copy of the accompanying "Sequence Listing" into the instant specification, and are also transferring a previously filed CRF to the present application in accordance with the requirements of §1.824, thereby conforming with the requirements for Patent Application disclosures containing nucleotide and/or amino acid sequences.
